

DEVANG KUMAR

New Delhi, India | 9968500655 | devangkumar12112005@gmail.com | LinkedIn | GitHub

Education

Chitkara University HP, BE in Computer Science Engineering

2023 – 2027

- GPA: 9.05/10
- **Coursework:** Computer Network, Database Management System, Operating System

Technical Skills

- **Languages:** Python (for Scripting/Automation), Java, C/C++, JavaScript.
- **Frameworks & Libraries:** Node.js, Express.js, React.js.
- **Databases:** MySQL, MongoDB.
- **Core Concepts:** Data Structures (DSA), OOP, DBMS, Operating Systems.

Academic Projects

WealthWise

<https://github.com/devang-kumar/wealth-wise>

- Built a finance web application using Django, Python, JavaScript, ml, and SQL for personalized insights.
- Integrated machine learning models to predict expenses and recommend optimal investments.
- Fetched live market data using APIs and implemented real-time financial calculations.
- Designed responsive frontend for intuitive navigation and improved user experience.

GitCode – LeetCode to GitHub Automation

<https://gitcode-inky.vercel.app/>

- Created a browser extension that automatically pushes LeetCode submissions to GitHub repositories.
- Integrated AI to generate clean, readable explanations for each coding solution in README files.
- Reduced manual effort for competitive programmers, saving significant time and improving workflow.

Blogger Website

<https://blog-app-u4x2.onrender.com>

- Engineered a full-stack blogging platform featuring secure user authentication and personalized dashboards.
- Implemented RESTful API endpoints using Node.js to handle CRUD operations for user posts.
- Optimized database queries in MongoDB to ensure low-latency data retrieval.
- Tools Used: HTML, CSS, JavaScript, Node.js, Express.js

Work Experience

Freelancer.com

2025

- Developed automation and ranking scripts tailored to client needs, consistently earning 5-star feedback.
- Debugged and enhanced large-scale LLM-based projects, contributing to production-ready solutions.
- Collaborated directly with clients to understand requirements and deliver on time with high quality.

Achievements

- Top Performer in **Coding Ninjas Hackathon**, recognized for problem-solving skills and optimized algorithmic solutions.
- Top Contestant in **Buildathon**, selected among leading teams for designing and delivering a scalable full-stack application.
